ENERGY IN HOMES & BUSINESSES

COACHING & SOLUTIONS

HOME ENERGY ASSESSMENT

A low-cost or free review of your home's thermal spaces, insulation, mechanical systems, and more, by a certified building analyst. A custom report is provided with recommended improvements.

- Identify areas that are leaking air or lacking insulation
- Appliances testing for energy efficiency & safety
- Free quick fixes to instantly save you money & improve comfort
- Energy Coaches to review your report and help you make a plan
- Connections to contractors to complete the work, financing options available, and rebates to bring down the cost of projects

BUSINESS/MULTIFAMILY ENERGY VISIT VISIT

A low-cost or free energy visit to your business or multifamily building, tailored to meet your needs and showcase opportunities for energy improvements.

- Best practices to start saving energy and money
- Customized recommendations for energy improvements
- Energy Coaches to review recommendations and help you make a plan
- Connections to contractors to complete the work, financing options available, and rebates to bring down the cost of projects
